Wildlife Review, published six times per year, serves to alert wildlife biologists to current worldwide wildlife/natural resource literature. Citations are taken selectively from over 1300 journals and periodicals. In addition, reference to more than 500 books and symposia proceedings concerning wildlife and natural resources is included annually. All citations are comprehensively cross-referenced in separate Author, Geographic, Subject, and Systematic indexes. Authors who publish in journals not screened for *Wildlife Review* are encouraged to submit reprints to the Editor.

The National Biological Survey assumes no responsibility for the accuracy of material from outside sources.

WILDLIFE Review

A current awareness index to wildlife and related literature.

NOVEMBER 1994 CONTENTS Number 245

Conservation
- Natural Resources . . . 1
- General Conservation . . . 2
- Conservation Education . . . 2
- Bibliographies, Directories, History, and Biographies . . . 2

Plants
- General, Ecology, and Techniques . . . 2

Book Review

Watching Kansas Wildlife: A Guide to 101 Sites, by Bob Gress and George Potts 130

AVAILABILITY OF REPRINTS AND PUBLICATIONS

Wildlife Review does not distribute any of the papers cited herein, nor can the editor of *Wildlife Review* obtain copies of these papers for anyone. A reprint of an article published in a journal may be available from the author, from the organization with which the author is affiliated, or from the publisher of the journal in which the article appeared. When an author's address is known, it is shown in square brackets following the citation. Addresses of most wildlife organizations can be obtained from the Conservation Directory, an annual publication available from the National Wildlife Federation, 1412 16th St., N.W., Washington, D.C. 20036. This directory lists more than 900 agencies and organizations concerned with natural resources use.

Camera-ready copy for this issue of *Wildlife Review* has been generated by computer programs developed by the Bibliographic Information Branch, National Biological Survey, Information Transfer Center, 1201 Oak Ridge Drive, Suite 200, Fort Collins, CO 80525-5589

***Wildlife Review* Is Now Available On Compact Disc**

BOOK REVIEW

Gress, Bob, and George Potts. 1993. *Watching Kansas Wildlife: A Guide to 101 Sites.* University Press of Kansas, 2501 West 15th Street, Lawrence, KS 66049-3904. viii + 104 pp. Available from the publisher at $9.95 (paper).

From Mount Sunflower north of Weskan in the High Plains to Schermerhorn Park south of Galena in the "Ozarks of Kansas," the authors take the reader on an insightful journey across one of the most diverse states in the Union. Details in entries for each site inform the traveller of land ownership (with phone numbers when located on public land), facilities, travel directions, and wildlife to be seen, as well as interesting geological formations, plants, and invertebrates. Reference to the icon symbols describing each site was easy to locate in the introduction. The list of field guides and references includes the usual vertebrate guides, and also concisely suggests literature on insects, plants, geology, and travel. While most Kansas residents may be aware of the local wildlife watching areas, this book would be a great addition to those who truly want to enjoy the biodiversity of the Sunflower State.—Terry N. Sexson, U.S. National Biological Survey, 1201 Oak Ridge Drive—Suite 200, Fort Collins, CO 80525.

Information Transfer Center
Fisheries Review - Wildlife Review
National Biological Survey
1201 Oak Ridge Drive, Suite 200
Fort Collins, CO 80525-5589

As the Nation's principal conservation agency, the Department of the Interior has responsibility for most of our nationally owned public lands and natural resources. This includes fostering the wisest use of our land and water resources, protecting our fish and wildlife, and providing for the enjoyment of life through outdoor recreation. The Department assesses our energy and mineral resources and works to assure that their development is in the best interests of all our people. The Department also has a major responsibility for American Indian reservation communities and for people who live in island territories under U. S. administration.

UNITED STATES DEPARTMENT OF THE INTERIOR
